IoTbased safety gadget for child monitoring

Says

What have we heard them say?
What can we imagine them saying?

Parents must know whether their children are safe and secure

When a child is by itself, they should feel secure and safe.

There are numerous security tools available worldwide to keep an eye on kids.

parents feel relaxed that their child is safe and can notice when he/she is in danger

The child must be watched closely at all times.

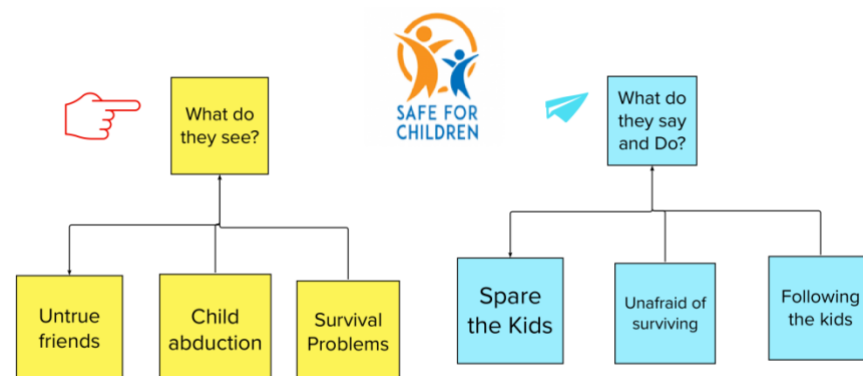

What do they think and Feel?

What do they hear?

To care for the youngster, the friends must urge their parents to do so

Thinks

What are their wants, needs, hopes, and dreams? What other thoughts might influence their behavior?

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?
